

# Innovative consulting solutions to the most pressing challenges

## WHO ARE WE

# We utilise our expertise to achieve goals and ensure innovative solutions

HMA is a leading national company that provides consulting services. We seek, through our experience, to be the right partners in the development phase that the country is witnessing in light of the government's and private sectors' pursuit to develop their institutions, modernise the existing systems, and to create a quantum leap in its performance and services provided.

We commit through our cooperation with institutions, government departments, and private companies to provide consulting services, utilising the latest smart technologies in the most vital areas to help define and achieve their future goals, raise their levels of performance, and enhance the country's vision to reach a sustainable future.

Our team is a team made up of national talents and international experts from around the world. Consequently, we have gained experience in the local and international markets that gives us the ability to face various challenges and take advantage of opportunities to find appropriate solutions in record time.

## OUR VISION

**To work with our partners: to move the future closer and provide the optimum solutions in achieving the UAE's vision**

We seek, through our expertise in the field of consulting, to keep pace with the future and work with our partners in government institutions and private companies to accomplish milestones and achieve new horizons by providing innovative solutions to the various challenges facing government institutions and private sectors today, motivated by our passion for the forward-looking vision of decision-makers and leaders of the United Arab Emirates, to make the UAE a leader in changing the notion of government agencies, institutions, and the private sector in the development of the society.

## OUR APPROACH

# A commitment to providing our clients with innovative consulting solutions

It is the responsibility of institutions, government agencies, and the private sectors to work hard and achieve the UAE's goals that align with the vision of the country. Therefore, making it a smart country that precedes the countries of the world in development and digitisation, thus becoming a leading regional headquarters for testing all that is innovative in the world of modern technology. The set requirements from various institutions are tight plans based on field experience that ensures that tasks are achieved, and results are guaranteed.

To be the right partner for our clients is our main goal. Consequently, we can participate in leading the change that is evident in the country in general and Dubai in particular. Such goals would only be achieved by offering consultations based on a full commitment to face challenges of our clients and work diligently and cooperatively to achieve goals, regardless of the challenges and time constraints.

We believe that aspirations are achieved through persistence, hard work, and cooperation. Subsequently, we believe through our expertise in the field of consulting, and our ability to work alongside the government agencies, institutions, and the private sector in serving the goals and the vision of the UAE government.

## WHAT DISTINGUISHES US

We build distinct partnerships; we have the experience, motivation, passion, and most of all, the innovative mindset.

## **Determination in adopting innovative solutions**

We embrace creative solutions based on determination and knowledge, and we implement and develop them in innovative ways.

## **Effective and significant partners**

We build long-term relationships with our clients to be real through our team's commitment to customer satisfaction and a resilient work ethic.

## **Clients-centric**

We create workable solutions that meet the challenges of each of our clients and accompany the solutions with periodic follow-ups to achieve the desired goal.

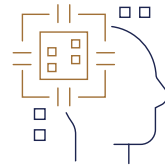

## **National Competencies and International Experts**

We possess a team of distinguished national talents and experts from all over the world that acquire an initiative spirit, creative mindset, and have extensive experience.

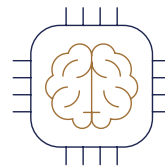

## OUR CONSULTING SERVICES

We provide consulting solutions to critical challenges in diverse fields, including:

### **Smart Innovation**

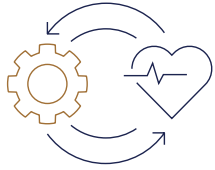

Our international expertise keeps pace with what is new in the world of innovative solutions. We present the optimum strategies to be followed in various smart technologies at your disposal within your institutions to raise the level of services.

### **Artificial Intelligence (AI) solutions**

We have a great deal of knowledge about Artificial Intelligence (AI) and its uses in improving services. To apply AI solutions, we can analyse and propose various strategies to transition towards adopting such solutions smoothly.

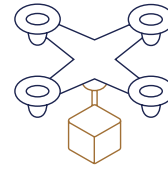

## Healthcare Management

We provide comprehensive healthcare management consulting services through our knowledge and experience in developing business plans and practical strategies based on the latest developments in the field.

## Project Management

We work with you to develop a comprehensive plan for your projects that begins with planning, design, control and monitoring, through to implementation & project delivery; not to mention, providing innovative solutions.

## Transportation & Logistics

We help our clients improve their logistics and transportation services, reduce costs, and increase efficiency by creating a successful structure, rebuilding aging transportation and while making smart decisions that are responsive.

## Information Technology

We help you set strategies in motion that unify the business and technology architectures and enable the competitive advantage. Drive your business forward by taking advantage of strategic advice, trusted insights and practical tools.
